

Pouches

Flexible, Functional
& Sustainable

Pouches are one of today's most versatile packaging formats, combining convenience, strong shelf presence, and sustainable design. At Tadbik, we manufacture stand-up, zipper, and shaped pouches tailored to the needs of Human-food, Pet-food, Personal care, and more. With monomaterial recyclable options and advanced barrier technologies, our pouches help brands reduce their environmental footprint while maintaining protection, functionality, and consumer appeal.
